

NPBSC PLAYER PLACEMENT POLICY

Players who have registered by the end of the official sign on days and have made the appropriate payment as per the Membership Fees Policy, will be placed in teams following the below guidelines:

Note: Early registration and payment of fees of players guarantees placement of that player in the requested team.

1. Players returning to the same team they played in the previous season.
2. Players returning to the same team they played in from a prior season other than the previous year.
3. Players requesting an intra-club transfer to a team in their correct age division.
4. Players requesting an intra-club transfer to a team outside their age division.
5. New players who have other family members at the club.
6. New players.

As part of the registration process, players are requested to nominate any team preferences they have when they register.

The team selection committee will try and accommodate these preferences where possible, however the final decision of a player's team is the sole decision of the team selection committee.

Players who register after the official sign on days and have made the appropriate payment as per the Membership Fees Policy, will be offered places in teams where available.
